LANGUAGES KNOWN

- Telugu – Mother Tongue
- Hindi – Beginner
- English – Intermediate

Technical SKILLS

- **Languages:** Python, Java, C++, JavaScript, SQL
- **Technologies:** Linux, Distributed Systems, Machine Learning, TCP/IP
- **Tools:** Git, Google Cloud Platform, pytesseract, Facebook BART Model
- **Concepts:** DSA, DBMS, OS, OOP, Networking

Soft Skills:

- Critical reasoning
- Active Listening
- Teamwork and Collaboration
- Focused

Other Skills:

- Knowledge of Computer Science fundamentals, along with Database Management Systems.
- Experience with distributed, multi-tiered systems, algorithms, and relational databases.
- Experience in optimization mathematics, such as linear programming and nonlinear optimization.
- Effectively articulate technical Challenges and solutions.

About Me:

Final-year B. Tech Computer Science student at VIT-AP (2025 graduate) with hands-on experience in distributed systems, software development, and data analysis. Currently completed the Internship at **UBS (Union Bank of Switzerland)** as a Reporting and Analysis Specialist. I had strong foundations in system design, machine learning, and programming in Python, Java, and C++.

EDUCATION

Graduation

B.Tech in Computer Science and Engineering

Vellore Institute of Technology (VIT-AP), Amaravati

2021 – 2025 | CGPA: 7.8/10

Class XII – AP Board | 2021 | 96.8%

Class X – AP Board | 2019 | 9.7 CGPA

Projects

Image Text Summarization using OCR + NLP

- Retrieved text from images using Tesseract OCR with 98% accuracy
- Summarized extracted text using Facebook BART with minimal data loss
- **Technologies**: Python, NLP, OCR, Transformers

Monte Carlo Tree Search-based Chess AI

- Implemented MCTS with Stockfish integration to simulate intelligent chess moves
- Expanded 100s of nodes per iteration and evaluated performance based on game outcome
- **Languages**: Python, Chess engine API

Experience

UBS (Union Bank of Switzerland) – Reporting & Analysis Specialist Internship - Certificate

Jan 2025 – Jun 2025

- Developed and automated reports (IB and GB) for Product Controllers and Clients
- Collaborated with cross-functional teams to investigate and analyse revenue streams
- Gained experience in **automating, deploying, and supporting infrastructure**
